Understanding "Page 1 of 1": What Does It Mean?

"Page 1 of 1" is a phrase commonly seen in search engine results, analytics dashboards, and website pagination. It indicates that the current view or dataset consists of only a single page. In web development and SEO, this term can have multiple interpretations and implications.

What Are Pages in Web Context?

Before delving into "Page 1 of 1", it's important to understand what constitutes a page in web terms:

- Static Web Pages: Individual HTML files like `index.html`, `about.html`, etc.
